www.linkedin.com/in/khadim-hussainj 

Computer Science graduate with a strong foundation in backend development, skilled in Python, PHP/Laravel, and MySQL, with hands-on experience building REST APIs, database-driven web applications, and automation scripts. Complemented by an Advanced Diploma in Software Engineering from Aptech and Google-certified in IT Support and Python Automation. Eager to join an internship or trainee program where I can take ownership, grow fast, and contribute to building reliable, scalable systems.

## Education

### Bachelor of Science in Computer Science

Virtual University of Pakistan | 2022 - 2026

CGPA: 3.38 / 4.00

### Advanced Diploma in Software Engineering (ADSE)

Aptech Computer Education, Hyderabad | 2020 - 2023

## Technical Skills

- **IT & Systems:** Networking fundamentals, Hardware Troubleshooting, OS administration (Linux / Windows), Software Installation & Configuration, Python Scripting for IT Automation
- **Languages:** Java, Python, PHP, JavaScript
- **Frameworks & Libraries:** Laravel, React.js
- **Database:** MySQL
- **Frontend:** HTML, CSS
- **Tools & Platforms:** Git, GitHub, VS Code
- **Concepts:** OOP, Data Structures & Algorithms, REST APIs, SDLC

## Projects

### Interactive Array Visualization Tool | React.js

- Built a React.js application to visualize array operations and searching algorithms.
- Implemented Linear & Binary Search animations with adjustable execution speed for interactive learning
- Used React state management and reusable components for dynamic UI rendering.
- Delivered as Final Year Project with complete technical documentation and presentation.

## Certifications

### Google IT Support Professional Certificate | Coursera - 2025

Networking | Operating Systems | System Administration | Hardware Troubleshooting | IT Security

[Verify Credential](#)

### Google IT Automation with Python Professional Certificate | Coursera - 2023

Python Scripting | Bash Automation | Git/Github | Configuration Management | Task Automation
